EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Insert the following before the first line:

-- This application is a divisional of application number 10/089,625 filed on January 8, 2003 which claims the benefit under 35 U.S.C. 371 of International Application No. PCT/KR00/01138 filed October 12, 2000. --

Note: The above examiner's amendment is consistent with applicant's instructions in the application transmittal.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest reference of record, WO 96/12708 teaches pyridine sulfonyl amide compounds useful in the preparation of sulfonyl urea derivatives, see formula (II) in page 5. The instantly claimed compounds differ from the reference compounds by having a $-C(=O)-(CH_2)_n-$ O-R group (wherein n is 1 to 3), in place of "R" in formula (II). The reference does not teach or fairly suggest any modification to the reference compounds and therefore, it is deemed that the reference does not provide any motivation to one of ordinary skill in the art to modify the reference compounds to prepare the instantly claimed compounds. Accordingly, the instantly claimed compounds are deemed to be novel and patentably distinct.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
